- Remember to use **New Lawn Starter** when seeding or sodding to ensure strong healthy root development
- Weed Beater Ultra** is a great cool weather broad leaf weed control
- Put down **Easy Weeder** weed control granules every time you mulch or disturb the soil
- Check early and often to make sure you get the **Botanical Interest** seeds you want
- Put down **Weed Beater Complete** for pre & post emergent control of several types of weeds including crabgrass and nutgrass

- Any time you plant use **Bio-tone Starter Plus** to reduce transplant shock and grow a stronger healthier root system. Now is a great time to plant trees and shrubs
- Plant pansies, violas, snap dragons, hellebores, and other cool season flowers with flower-tone. They love cool weather and can take a freeze or frost without a problem
- Check out our selection of quart perennials
- If you haven't already, repot your house plants with **Baccto lite potting soil** and then feed with osmocote

- For best crabgrass control we recommend at least 2 applications. We have crabgrass control with and without fertilizer.
- Spray a horticulture oil on trees and shrubs to help keep insects and diseases under control. We carry **All Seasons Oil by Bonide**
- Spray for cool season weeds like henbit and chickweed
- Use tacksak (shredded straw with tack) when seeding to hold in moisture, less mess, and easy clean up
- You lawn will actually absorb fertilizers with the right ph so have your soil tested and put down lime now if needed
- Start feeding houseplants now with the green labeled **Monty's**
- Cut back browned-out ornamental grasses and foliage of perennial flowers that you didn't remove last fall. Feed with **Flower-tone/Plant-tone**. Now is the time to divide and move any summer or fall blooming perennials

- Feed trees and shrubs. Evergreens feed **Holly-tone**, Non-evergreens **Plant-tone**, flowering: trees, shrubs, and perennials **Flower-tone**
